Re: Cooperation Agreement Between TSO Queens Supervisory Unit, Operating Supervisory Unit and MTA Bus Unit

Dear Mr. Valenti:

This is to memorialize the parties' discussions during recent negotiations for the 2020-2024 Queens Supervisory Unit and Operating Supervisory Unit collective bargaining agreements and supersedes and replaces the prior April 6, 2023 Cooperation Agreement.

The parties have agreed to implement minor modifications to the assignment of work between the Queens Supervisory Unit, the Operating Supervisory Unit and the MTA Bus Unit at the Zerega Training Center and on the road as follows:

- Queens Supervisory Unit, Operating Supervisory Unit and MTA Bus Unit Dispatchers will be able to supervise any and all runs assigned to their picked location whether or not the runs emanate from a Bronx, Manhattan, Queens, Brooklyn, or Staten Island depot or adjacent counties, including those runs emanating from any MTA Bus or New York City Transit Authority bus facility.
- Queens Supervisory Unit, Operating Supervisory Unit and MTA Bus Unit 19A Dispatchers assigned to the Zerega Training Facility will be able to supervise 19A work for all MABSTOA and Queens Bus Operators for the day, regardless of which Authority/Company the Bus Operator works for.
- OA and Queens 19A Dispatchers when not assigned to the Zerega Training Facility for the day will not have set hours and may be available for other work before or after their 19A assignment within their Division.

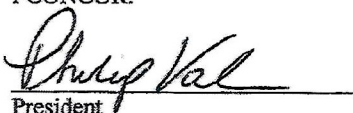

It is understood that these changes will not be utilized to reduce Queens Supervisory Unit or Operating Supervisory Unit positions, and that any reductions in personnel, if warranted, will be from the MTA Bus Unit. Unless otherwise agreed to, all other current practices, including how shuttle work is assigned, will remain in effect.

If this accurately reflects your understanding, please sign below.

Sincerely,

David Franceschini
Deputy Chief, Collective Bargaining

I CONCUR:

Philip Valenti, President
