

# **INNER IMAGING, PC introduces CANCER SCREENING for the Transit Supervisors Organization. Some things you should know....**

The principle cause of death in the United States is from Coronary Artery Disease but the greatest fear of death comes from Cancer. Most Cancers are caused by abnormalities in the genetic material of cells. This frequently occurs due to the effects of carcinogens such as tobacco, radiation, chemicals, infectious agents, and the terrible mix of silica and multiple contaminants like those from the World Trade Center collapse. A poor immune system will make one even more vulnerable to Cancers.

**TEST 1 Inner Imaging** has worked with members of the police, and fire, departments and the local municipal and trade unions for the past 20 years and we too have seen our share of patients with Cancer. Our **Body Scan** screens for disease and has identified more than 250 separate and distinct diseases. We have also had 17 forms of Cancer confirmed. The Cancers that have been confirmed using our **Body Scan** are as follows:

- Thyroid Cancer
- Liver Cancer
- Duodenal Cancer
- Stomach Cancer
- Small Bowel Cancer
- Rectal Cancer
- Cervical Cancer
- Hairy Cell Leukemia
- Lung Cancers
- Kidney Cancer
- Prostate Cancer
- Uterine Cancer
- Colon Cancer
- Breast Cancer
- Lymphoma
- Testicular Cancer
- Birt-Hogg-Dube

**TEST 2 Inner Imaging** introduced the first **Cancer Screening Panel** for our Union Partners using biomarkers. The purpose of this blood panel is to look for markers which suggest that Cancer may be present.

**\*\*\*This test is not performed in Inner Imaging's office but at BioReference Labs. A list is available\*\*\***

The Cancer Biomarkers test for the following:

- CA19-9, Serum (Proposed as a marker for Pancreatic Carcinoma)
- CA 125 (Proposed as a marker for Ovarian Cancer)
- CEA (Measures a protein in the blood for certain kinds of Cancers)
- Alpha Fetoprotein (Tumor Marker)
- Amylase Serum (Acute Chronic Pancreatitis)
- CMP (Tests for Diabetes).
- GGT (Tests for three forms of liver disease)
